

# Knockout Drawers

# Knock Out Drawers

## Under Grinder Knock Out Drawer

The Under Grinder Drawer is designed to fit under most popular coffee grinders. Its self-contained drawer unit is easily removed to empty coffee grounds and clean. The robust stainless steel construction ensures many years of maintenance-free operation. The Heavenly model is a compact version for use with the semi-professional models and smaller grinders

## High Capacity Knock Out Drawer System

The Top Tilting Knock Out Drawer is designed to fit underneath a counter top and tilts as the handle is pulled forward. The coffee grounds, when knocked out of the filter holder, then drop into the Lower Sliding Drawer which is located directly underneath the tilting drawer. The Lower Sliding Drawer is normally lined with a bin liner, which is taken out and disposed of when full. Both the Top Tilting Drawer and the Lower Sliding Drawer must be fixed onto a solid timber frame or metal structure and secured using suitable fixtures. Failure of the mounting may occur if fitted to MDF or chipboard.

## Under Counter Tilt Drawer

The Under Counter Tilt Drawer is designed to fit neatly under a counter top. The drawer can be removed to empty the coffee pucks. Please note that all Under Counter Drawers must be fixed onto solid timber frames or metal structures and secured using suitable fixtures. Failure of the mounting may occur if mounted to MDF or chipboard.

## Technical Specifications

Model	Height	Width	Depth
<b>Under Grinder</b>	80mm	250mm	430mm
<b>Heavenly Under Grinder</b>	62mm	165mm	270mm
<b>Under Counter Tilt Drawer</b>	312mm	225mm	250mm
<b>Cut out required in counter front for mounting the under counter knockout drawer.</b>	280mm	193mm	
<b>Top Tilting Drawer</b>	313mm	383mm	260mm
<b>Cut out required in counter front for mounting the tilting under counter knockout drawer.</b>	284mm	354mm	
<b>Lower Sliding Drawer</b>	306mm	383mm	420mm
<b>Cut out required in counter front for mounting the tilting under counter knockout drawer.</b>	278mm	354mm	

All under counter drawers must be fixed onto a solid timber frame or metal structure and secured using suitable fixtures. Failure of the mounting may occur if mounted to MDF or chipboard.
